I am Farinaz Eftekhari

## **A Graphic Designer**

Since I remember, I loved discovering all creative ideas that I believe in. Now, I'm a graphic designer & it become a part of my life.

I take my inspiration from words that define the characters & due to my recognition of them, I always try to design the best for the bests.

In point of my view, every time, in every project, you will face a contrasting view that motivate you think about new ideas to plan a perfect design;

According to this fact you will involve different challenges that helps you acquire more experiences you can use in designing, directing & managing creative ideas from concept to production.

that I was honored to work with

# AGILE STYLING

BY JULIA DOBKINE ●●●

Agile Styling founded by Ms. Julia Dobkine is an innovative and educational styling experience that helps you discover an easy and fast approach to your personal style transformation, as she says.

As a professional color analyst, she helps you discover the perfect colors to enhance your personal style.

Website: [www.agilestyling.com](http://www.agilestyling.com)

Instagram: [@agile\\_styling](https://www.instagram.com/agile_styling)

Youtube: [@AgileStyling](https://www.youtube.com/@AgileStyling)

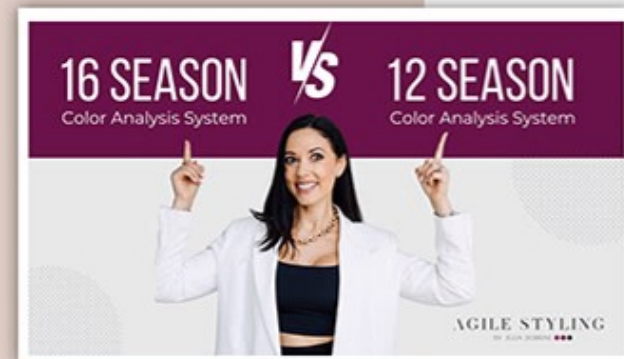

TikTok: [@agile\\_styling](https://www.tiktok.com/@agile_styling)

As the graphic designer for Agile Styling, I applied my expertise in color theory to create specialized color palettes, ensuring they aligned with the brand's vision and philosophy.

I also designed a range of digital materials, including catalogs, booklets, workshop presentations, and eBooks, blending creativity with design precision to enhance the brand's educational contents.

Additionally, I crafted visually engaging social media content, such as YouTube video covers and Instagram posts, and used my video editing skills to produce high-quality video content.

In my role as social media manager assistant, I was responsible for scheduling and posting content across platforms, maintaining consistency and engagement.

I also developed a growth strategy for YouTube, which included a balanced mix of short videos, long-form content, and community tab posts. This strategy led to a remarkable 60% growth in the channel's audience within three months.

# Master Electric Ltd.

[www.master-electric.ca](http://www.master-electric.ca)

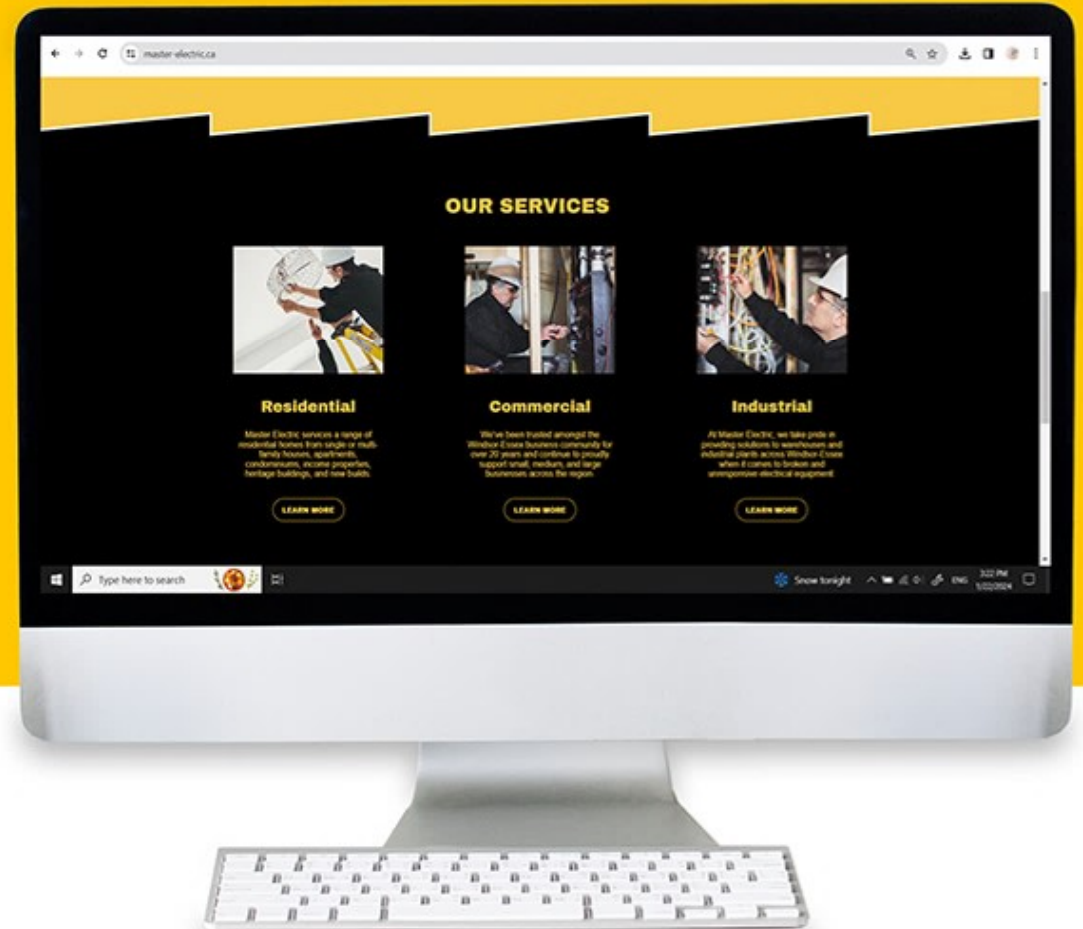

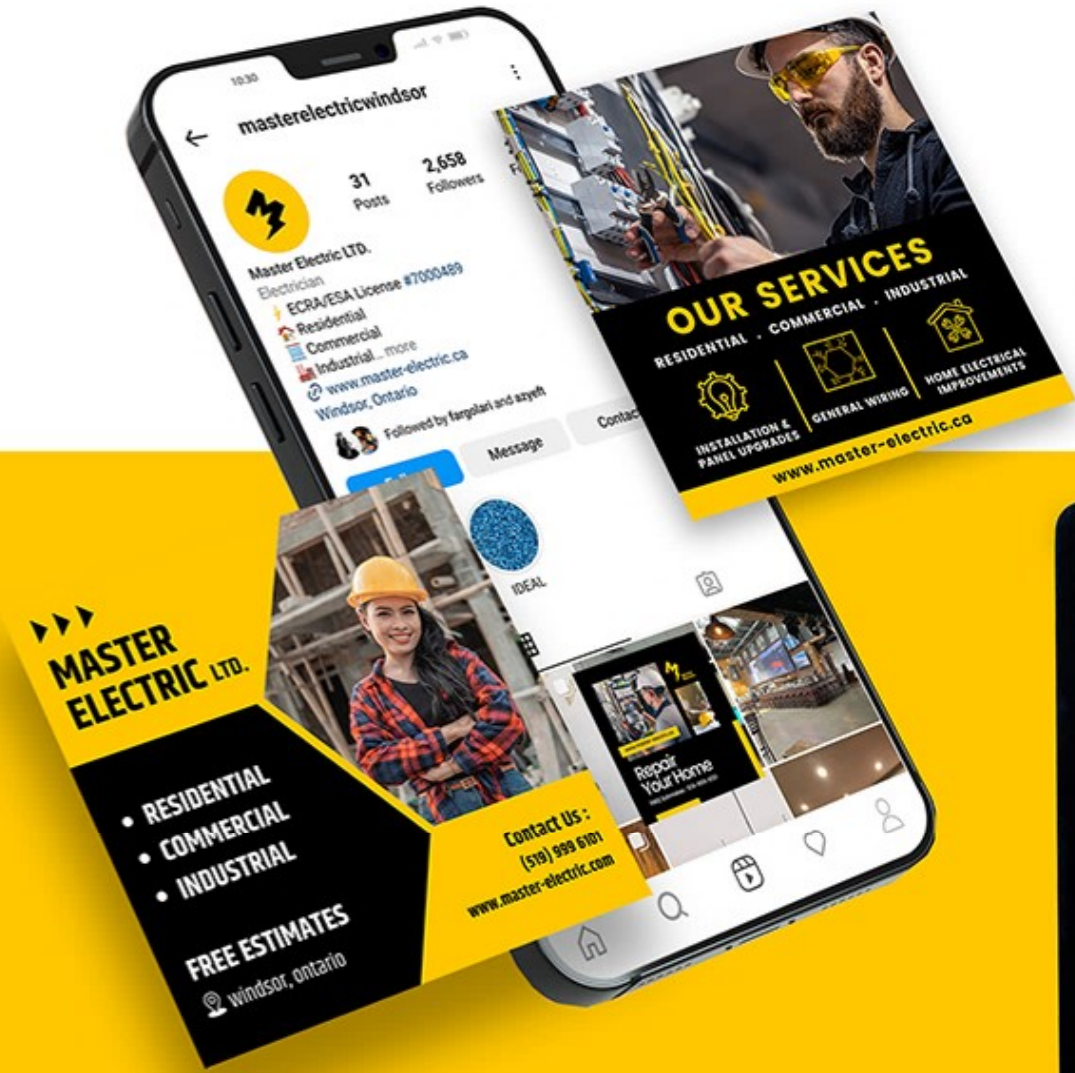

Master Electric Ltd. is an electrical contractor company that has been servicing residential, commercial, and industrial electrical projects across Windsor-Essex County. I was honored to have the opportunity to work with this company, to contribute my creative expertise as a graphic designer.

## Master Electric

I played a pivotal role in creating content for both the website and social media platforms. My responsibilities included introducing innovative designs to enhance visual communication and brand identity.

[@masterelectricwindsor](https://www.instagram.com/masterelectricwindsor)

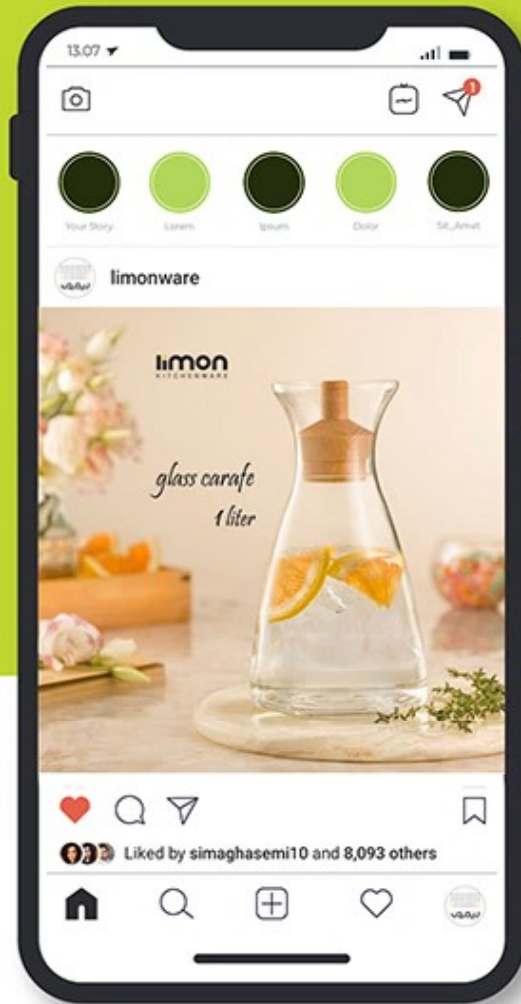

Limon is an Iranian manufacturer of kitchen & homeware with many international branches & long history in product design that cooperating with professionals makes it able to reach the standards of international level.

I was honored to work with this company in last 3 years as a graphic designer in advertisement team in Iran and UAE branch & it acquires me valuable experiences in design & managing such projects.

KNIT DESIGN collection was a serie of plastic base products that was added to our homeware categories at the last moment before 2022 kitchen & homeware exhibition; So since we didn't have enough time & equipments for commercial photography we designed posters with some stock photos & the results was actually great.
